

Generation training centres nationwide

Generation
training services

a division of Generation (UK) Ltd
are now able to provide a full
range of specialist Health & Safety
Training to the Construction and
Industrial Sectors nationwide
through its new Administrative
Centre in Wakefield, Yorkshire.

Generation
training services

The administration base at Wakefield is able to arrange a wide range of construction and industry related training for operators, erectors and supervisors nationwide.

Training can be conducted on site, customers own premises and through a network of training centres, including Glasgow, Chelmsford, Southampton, Birmingham and Wakefield.

Generation Training Services Instructors can provide fully accredited and certificated training for PASMA (Aluminium Towers) and IPAF Powered Access (Mobile Elevated Work Platforms) in addition to a full range of Scaffolding Access, Health and Safety, Working at Heights and Material Handling and Lifting, courses.
